## The Lewiston Maine Shooting By the Numbers

IS it mass shooting psyop season again, already? Between this and the lame attempt at an alien invasion, the 2023 calendar is one in which the Gubberment appears to be laying down the same cards, repeatedly, hoping we don't notice that they're all out of original ideas. I wish I could spend more time taking you through them but many of you know I've got a stack of other research topics to attend to. Quickly, I want to thank Jason123 once more for helping me out on this one. Where would I be in the Numbers Ritual Game without him? Well, getting right to the point. The shooters name is **Robert Card**, sounding exactly like the sort of name that an ABC Agency would give to one of its actors. Notice how DRUDGE is reporting **18 dead**. It wasn't always so.

**At least 22 killed in mass shooting at 2 locations, county on lockdown as police scour for person of interest**

Initial reports had 22 killed at 2 separate locations. They just had to flash that number, didn't they? 222 equals order out of chaos. I should have known. Another 222 that we have all become familiar with is Wuban Coronavirus, but then don't forget about the World Economic Forum.

By the way bowling alley equals 56. Big mistake. Do they think we're stupid? 56 equals Society of Jesus, All seeing eye, Royal Family, and Freemasons, telling us that the latest psyop had any number of investors. 56 also equals Civil War, but we haven't arrived at that televised event quite yet.

"Killer" = 67 (Ordinal)		"Robert Card" = 67 (Reverse Reduction)	
K i l l e r 67 11 9 12 12 5 18		R o b e r t C a r d 67 9 3 7 4 9 7 39 6 8 9 5 28	
Entry	Reduction	Days Left in Year: (Oct-25)	67
Blood sacrifice	67		
Human sacrifice	67		

And 67 equals Killer, Blood Sacrifice, and Human Sacrifice. They thought they could hide that from us. If only it hadn't happened on 10/25/2023 of all days, leaving another 67 days in the year. Oh, and look! Even Robert Card equals 67, LOL.

"Law Enforcement is attempting to locate Robert Card 4/4/1983, as a person of interest regarding the mass shooting at Schemengees Bar and Sparetime Recreation this evening. CARD should be considered armed and dangerous. Please contact law enforcement if you are aware of his whereabouts," the Lewiston Police Department wrote.

Well now, will you look at this crap? They throw his birthday into the sentence immediately following his name. 4/4/1983. Oh gee, you have to wonder if they're dropping any clues.

"Kill" = 44 (Ordinal)		"murder" = 83 (Reverse)	
K i l l 44 11 9 12 12		m u r d e r 83 14 6 9 23 22 9	

Yep, they are. **44 equals kill** and **83 murder**. Man, oh man, this characters backstory is a loaded gun.

Maine gunman was sectioned after 'hearing voices' and threatening to blow up military base...

"hearing voices" = 216 (Reverse)  
 hearing voices 127 89 216  
 19 22 26 9 18 13 20 5 12 18 24 22 8

The other thing the tabloids are going on and on about regards Robert Card, the Maine gunman, "**hearing voices**." I checked. **Hearing voices equals 216**. They must think we easily forget. Earlier this year, **Kevin McCarthy** won his short run as Speaker of the House with the 15<sup>th</sup> ballot, totaling **216 votes**. His first day as speaker was **1/9/23**, exactly **666 days** before the next presidential election for the **47th U.S. president**. The tie in this time around seems to be Halloween, as the shooting happened on **10/25/23**, **6** days away from trick-or-treat.

Entry	Ordinal	Reverse	Reverse Reduction
Hamas	42	93	30
Maine	42	93	30

And lest we not forget, **Hamas** is a **Globalist psy-op group**. This according to the son of a Hamas leader, but come on, tell us something we don't know already. Whether we are dealing with an Ordinal, Reverse, or Reverse Reduction, **Hamas** and

**Maine** all add up to the same thing. We've got a match.
